

DISCUSS PLANS FOR RIVER DAM

Plans for a Desplaines River Valley dam to be built at Lockport and the reopening of the backwaters in the area of the Kankakee Ordnance plant, now known as the Joliet Arsenal, were discussed by the northern zone association of the Sportsman's and Conservation clubs of Illinois at a meeting Sunday at the Kaskaskia hotel at LaSalle.

Resolutions for both projects were presented to the zone members and were approved and adopted. John H. Ruthenbeck was the Joliet delegate attending the conference. Mrs. Dorothy Flagg was the delegate representing the Lily Cache chapter.

Committees for 1946 were appointed including resolutions, legislation, pollution, credentials, and education. Mr. Ruthenbeck was selected as chairman of the legislation committee with Mrs. Flagg named to the educational committee.
